■ OPERATION INSTRUCTION

Thank you for purchasing the **URC5D** remote control. Before you can use your new remote, you will need to program it to operate the specific A/V home entertainment equipment you wish to control. Simply enter the proper device codes for your equipment and it is ready to use.

■ BATTERY INSTALLATION/CHANGE

1. On the back of the **URC5D**, pull the battery compartment cover.
2. Insert two (2) AAA new **Alkaline** batteries.
3. Match the (+) and (-) poles correctly aligned into the battery compartment.
4. Close the battery compartment.

Note : Removing the batteries for more than 2 minutes will require you to reprogram your remote.

■ SETTING UP BY DIRECT ENTRY

To program your **URC5D** to operate your TV :

1. Turn on your TV.
2. Press & hold the **SET**  key and press the **TV**  key once. At this time, the red LED light will light on.
3. Release from the **SET**  key and **TV**  key.
4. Enter the 3-Digit TV code from the code list for your brand equipment.

* If you perform this procedure correctly, the red LED light will go out. Otherwise, the red LED flashes 2 times.

5. Aim the **URC5D** at your TV and press the **POWER**  key. Your TV should turn off. If none of the keys or only some of the keys operate your TV, repeat Steps 2-4, trying each code listed for your brand until you find the one that operates your TV.
6. Your **URC5D** is now programmed to operate your TV. Write down your TV code on the label at the back of the **URC5D** for future reference.
7. To program other equipment, repeats the Steps 1-6 for your VCR, SAT, AUDIO and or your second TV or VCR.

Note : To leave the SETUP during the code entering, just press any of the [DEVICE] keys once. In other case, if no code entering within 10 seconds, the red LED light will go out automatically.

■ SETTING UP BY AUTO SEARCH

This auto search method checks all its preprogrammed codes to find the code that will operate your equipment automatically. This method may takes a few minutes.

1. Turn on your TV and press the device mode as **TV** .
2. Aim the **URC5D** at your TV.
3. Press & hold the **SET**  key and **POWER**  key at the same time for 4 seconds until the red LED light on. Then release the **SET**  key and **POWER**  key. **AUTO SEARCH** is now performed.

4. If the TV turn off. This indicates that the **URC5D** is now set to your TV.
5. Press any key to exit and the red LED will go out automatically. The **URC5D** is now ready to operate your TV.
6. To check the code, press **POWER**  to ON position. Press **CH+/-**   , **VOL +/-**   ,  , and other applicable keys. If no function, repeat Steps 1-5.
7. To program other equipment, repeats the Steps 1-6 for your VCR, SAT, AUDIO and or your second TV or VCR.

■ SETTING UP BY MANUAL SEARCH

This manual search method checks all its preprogrammed codes to find the code that will operate your equipment. This method may takes a few minutes.

1. Turn on your TV.
2. Press & hold the **SET**  key and press the **TV**  key once. At this time, the red LED light will light on.
3. Release from the **SET**  key and **TV**  key.
4. Again press the **SET**  key once, the red LED light will flash continuously.
5. Aim the **URC5D** at your TV.
6. Now, press & release **POWER**  key until the TV turns off. This indicates that the **URC5D** is now set to your TV.

Hint : During the Manual Search mode, you can use the **SET**  key as forward/backward toggle switching to locate the correct code of your TV in a quick way.

7. Press the **[DEVICE]** key once. The red LED will go out automatically. The **URC5D** is now ready to operate your TV.
8. To check the code, press **POWER**  to ON position. Press **CH+/-**   , **VOL +/-**   ,  , and other applicable keys. If no function, repeats Steps 1-8.
9. To program other equipment, repeats the Steps 1-8 for your VCR, SAT, AUDIO and or your second TV or VCR.

Note 1 : For VCR or AUX, press & release either **POWER**  or  key.

Note 2 : To leave the **MANUAL SEARCH** during the code searching, just press any of the **[DEVICE]** key once. In other case, if no code entering within 30 seconds, the red LED light will go out automatically.

■ SETTING UP BY LEARNING

Your **URC5D** is preprogrammed for use with most of your equipment of TV, VCR, Satellite Receiver, Cable Box, CD, & AUDIO. Because of the limited number of key available, some function may not be included. You may teach your **URC5D** with the original remote control to operate any function. Choice is Yours! Besides the preprogrammed method, you may also teach your **URC5D** to operate any other IR controlled equipment and appliances.

1. Press & hold the **SET**  key and press the **[DEVICE]** key (e.g. **TV** ). At this time, the red LED light will light on.
2. Release from the **SET**  key and the **[DEVICE]** key.
3. Place the original remote control towards your **URC5D** lens-to-lens on a flat surface 3-5 CM apart. Be sure the original remote control is with fresh batteries.
4. Enter the 3-Digit number of    and the red LED light will light on.
5. Press & release the desired key on your **URC5D** you want to be programmed the command. Now, the red LED flashes.

NOTE : DO NOT LEARN ANY OF THE [DEVICE] KEYS

If no entering of key command from the original remote control within 15 seconds, the Learning Mode will go out automatically.

6. Press & hold of the corresponding key on the original remote control to be memorized. The red LED flashes one time when the command has been transferred OK. Release from the key. The red LED flashes again for next learning. Otherwise, press any of the **[DEVICE]** key once or no entering of key command from the original remote control within 30 seconds, the Learning Mode will go out automatically.

Note : If the red LED blinking for three times and remain light on, it shows ERROR during the learning process. You may have to adjust and align both remotes, and try for step 5 to 6 again.

7. Repeat step 5 to 6 to transfer other signal into next desired function key for the **URC5D** until the memory is full.
8. If the red LED blinking for six times and remain light on, it shows the memory is full. You may repeat one more time on same key follow step 5 to 6 again. Or press any of the **[DEVICE]** key once, the Learning Mode will go out automatically.
9. After all the desired function keys are programmed, press any of the **[DEVICE]** key once, the Learning Mode will go out automatically.

Caution : Entering a new preprogrammed code number will erase and replace all learned commands in the desired device mode automatically.

■ MACRO FOR ONE-TOUCH

Your **URC5D** is capable to produce a sequence of 15 keys command (maximum) into one **[MACRO]** key function (**MAC 1** or **MAC 2**). This allows you to use one key touch for the routine start of all your home entertainment equipment. It's really no limit like a freeway.

To Setup the MACRO function :

1. Press & hold the **SET**  key and press the desired **[MAC]** key once. E.g.: **MAC 1** or **MAC 2** .
2. At this time, the red LED light will light on.
3. Release from the **SET**  key and desired **[MAC]** key.
4. Enter the desired key commands (up to 15 commands) in order for one touch MACRO function.

5. After the desired key commands are entered. Press and release from the desired [MAC] key. The red LED will light off.
- Note :** If the entering of command keys are over 15 keys during the setup of MACRO function or no press of command key within 30 seconds, the red LED will light off automatically. It is assumed the setup of MACRO function is OK.

For Example :

SET + > TV > POWER > TV/AV > VCR > POWER > PLAY > TV > .

To Erase the MACRO function :

1. Press & hold the SET key and press the desired [MAC] key once. E.g.: or .
2. At this time, the red LED light will light on.
3. Release from the SET key and [MAC] key.
4. Press again the desired [MAC] key once. The MACRO function will cancel.

■ PUNCH THROUGH

It allows you to operate TV's VOLUME and function simultaneously without having to switch the device modes repeatedly. You can adjust the TV sound source while you are operating the VCR or Satellite Receiver. Right at your fingertips.

■ TELETEXT AND FASTTEXT

The function of *TELETEXT* and *FASTTEXT* should operate exactly as your original remote.

■ PREPROGRAMMED CODE DISPLAY

This method displays its 3-digit preprogrammed codes that will operate your equipment. You can control the display of each position in an easy way. For example, press key for 1st digit of code, press key for 2nd digit of code and press key for 3rd digit of code.

1. Select the desired [DEVICE] key.
2. Press & hold the SET key, then press the desired digit code you want to display.
3. Release the SET key.
4. The red LED will flash in accord to the count of digit code. (No flash for digit 0).
5. Repeat Steps 2-4 for next display.

■ TECHNICAL SPECIFICATIONS

Communication Mode :	Infrared (Transmitter and Receiver)
Power Requirement :	3V (2 x AAA, IEC-LR3, UM-4 size alkaline batteries)
Effective Range :	7M, ±20 degrees
Max. Operating Temperature :	0°C to +50°C
Max. Storage Temperature :	-25°C to +125°C
Dimension :	63(W) x 28(H) x 173(L) mm
Weight (without batteries) :	92 g.
