## SAFETY WARNING

**Risk of accident can be greatly reduced by planning before starting a project WALL, CHIMNEY, EAVES OR LOFT SPACE INSTALLATION**

- Before starting installation check structure is sound and check for hidden electrical wiring or plumbing
- When working on an installation outside, beware of overhead power lines
- Observe safe working practices, tread carefully and ensure adequate lighting is available in loft or roof space
- Before making any connections switch electricity off at the mains
- Always follow manufacturer's operating and safety instructions before using tools and/or equipment
- Ladder Safety - **always** read and follow the manufacturer's instruction label affixed to the ladder
- To avoid injury always route cables or wiring carefully
- Ensure cable is correctly routed before fixing into position, taking care not to over tighten cable clips
- This product may contain small parts - keep out of reach of children
- After installation make regular maintenance checks for wear and tear
- If in doubt consult a qualified electrician or professional aerial installer
